

You rain down into a creek.  
Go to stream.

You snow upon Mount Hood.  
Go to mountain.

You rain upon the city  
carrying air pollutants  
from car exhaust.  
Take 5 tokens and go to settlement.

You rain upon a rural farm land.  
Go to settlement.

You hail upon the city.  
Go to settlement.

You rain into the Pacific Ocean.  
Go to ocean.

You evaporate into the air. Go to cloud.

You are soaked up by a  
kelp plant. Go to plant.

You are swallowed by a fish.  
Go to animal.

You are a molecule frozen in the polar  
ice caps. Freeze here one turn,  
deposit one token, and draw again.

You are a molecule in the ocean  
and you see a tanker ship spill oil. Take  
5 tokens, deposit one and draw again.

You get sprayed with pesticides while  
in a raspberry and get eaten by a bird.  
Take 5 tokens and go to animal.

You are transpired (sweated) through  
a plant's leaves. Go to cloud.

You run off through a muddy  
construction site into a stream.  
Take 5 tokens and go to stream.

You run off a parking lot, through  
storm drains and into a stream.  
Take 5 tokens and go to stream.

You soak into the ground in a wetland  
preserve and replenish aquifers.  
Go to groundwater.

You become a pond in a park and get  
licked up by a deer. Go to animal.

You are used in a factory then  
released through a pipe into a stream.  
Take 5 tokens and go to stream.

You run off of recently fertilized lawns  
with a heavy rain into storm drains in the  
street. Take 5 tokens and go to stream.

You become a mud puddle  
in an overgrazed cow pasture then  
run off into a stream.  
Take 5 tokens and go to stream.

You are channeled out of the  
Columbia River to be used for irrigation  
in a field of lettuce. Go to plant.

You flow out to the ocean carrying  
pollutants from the towns you  
passed along the way.  
Take 5 tokens and go to ocean.

You evaporate into the air.  
Go to cloud.

You are licked up by a bear fishing  
in your stream. Go to animal.

You flow slowly underground,  
reach a wetland and drain into a stream.  
Go to stream.

You evaporate into the air.  
Go to cloud.

You leave a squirrel's body  
as urine. Go to mountain.

You seep slowly through  
the lake bottom into the ground.  
Go to groundwater.

You leave a human's body  
as urine, camping next to a lake.  
Take 5 tokens and go to lake.

You are licked up by a fox.  
Go to animal.

You are used to wash a load of  
clothes, then flow down the drain to  
the wastewater treatment plant and  
empty into a stream. Go to stream.

You are in a lake with lots of  
motor boats and jet skis. Take 5 tokens,  
deposit one and draw again.

You are exhaled in a raccoon's's  
breath as water vapor. Go to cloud.

You flow slowly underground and reach  
the Pacific. Go to ocean.

You land in a meadow as fog then  
evaporate into the air. Go to cloud.

You get pumped out of an aquifer  
through a well used for drinking water.  
Go to settlement.

You collect in a gully and flow  
downhill as a clean mountain  
stream. Go to stream.

You flow slowly underground,  
below a community where there  
are old, leaking septic systems  
before you reach a lake.  
Take 5 tokens and go to lake.

You absorb into the ground where  
plants soak you up with their roots.  
Go to plant.

Your flow slowly underground  
below an old, closed landfill where  
leachate seeped into the ground,  
then you reach a lake. Take  
5 tokens and go to lake.

You run quickly down a steep, muddy  
hillside that has been clearcut.  
Take 5 tokens and go to stream.

You soak into the ground and  
replenish an aquifer.  
Go to groundwater.
